

SANTA FE

Making every day upscale.

Santa Fe's wide, distinctive grille merges seamlessly with the main headlamps while dynamic side proportions lead to the rear lamps, delicately wrapped around the edges of the vehicle. Santa Fe's perfectly-balanced stance will ensure an unrivaled presence on the road, helping you make every moment of your day brilliant.

Making every day comfortable.

Santa Fe's interior isn't just bigger – it's filled with more thoughtfulness for the entire family. The high center console's soft and plush leather surface offers the comfort of an armchair the moment you sit down, while the neatly-aligned buttons allow hassle-free control of various functions. The state-of-the-art digital cluster and LCD screen are visually attractive to watch as they provide you with meticulous care while you drive.

Global specifications shown are for illustration purposes only. Specifications in your country/territory may vary. Please check with us for more details.

A button-type gear shift lever is located conveniently on the center console, while video images of the vehicle's side rear blind spots can be seen on the cluster, making tricky lane changes safe and easy. Different drivers can also conveniently select previously-saved profiles for preferred GPS settings, air conditioning, radio and other features.

Bridge-type High Console & Shift-By-Wire Automatic Transmission

12.3" Full LCD Cluster & Blind-Spot View Monitor (BVM)

8" Display / Wireless Smartphone Charging System

Don't worry about extra family members or distances with the Santa Fe. A wide choice of seat variations and convenient features will accommodate everyone, everywhere. A simple button is all it takes to fold and slide the second row seats forward for easier access to the third row seats, while Santa Fe's new platform and layout design provides more room in the second row and cargo area, ensuring a comfortable journey for all. When both hands are full, thoughtful details like the Smart Power Tailgate will take a load off your shoulders.

2nd and 3rd Row Seats & Space

One-Touch Walk-in & Folding / Smart Power Tailgate

Smart technology used wisely.

Simply adding a lot of technology to a car won't make it safer. Rather, Santa Fe is designed to smartly minimize the dangers in our everyday driving environment to ensure safety. So the next time you feel at ease backing out of a tight space or parking in a tricky spot, just know that Santa Fe's got your back.

Reverse Parking Collision-Avoidance Assist (PCA)

This warns the driver if a collision risk is detected while reversing. If the risk increases even after the warning, it helps to automatically stop the vehicle.

Surround View Monitor (SVM)

4 HD cameras mounted on the front, sides, and rear of the vehicle show the surroundings in real time.

Global specifications shown are for illustration purposes only. Specifications in your country/territory may vary. Please check with us for more details.

Hyundai SmartSense

Being prepared involves detailed and meticulous care. Santa Fe's Advanced Driver Assistance System considers the various conditions a driver might unexpectedly face to undertake complex decisions or minimize mistakes.

Smart Cruise Control (SCC)

This enables drivers to stay centered in a lane and keep a set distance and speed from the vehicle ahead when driving on a highway.

Lane Keeping Assist (LKA) with Lane Following Assist (LFA)

LKA with LFA keeps you safely centered within the lane using its front view camera to monitor lane markers. On detecting an unintentional lane departure, a warning is triggered and, if necessary, LKA will automatically provide corrective steering input to keep you within the lane.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA)

This function warns the driver if a collision risk is detected from the left or right side of the vehicle while reversing. If the risk increases even after the warning, RCCA helps to stop the vehicle.

Forward Collision-Avoidance Assist (FCA, junction turning)

This function warns the driver when a forward collision risk is detected, such as with a pedestrian, cyclist or vehicle that suddenly slows down or stops ahead. If the risk of collision continues to increase after the warning, it automatically assists with emergency braking. The same applies to collision risks with oncoming vehicles while turning right at an intersection.

Blind-Spot Collision-Avoidance Assist (BCA)

When operating the turn signals to change lanes, if there is a risk of collision with a rear side vehicle, the function provides a warning. If the collision risk increases even after the warning, the function automatically controls the vehicle to help avoid a collision. If there is a risk of collision with a rear side vehicle while exiting a parallel parking spot, the function automatically assists with emergency braking.

Safe Exit Assist (SEA)

This function provides a warning if a vehicle approaching from the rear side is detected as the occupant opens the door to exit the vehicle. If you attempt to deactivate the child safety lock in such situations, SEA will override you to keep the rear doors closed.

Diverse power options controlled easily.

Santa Fe's powerful driving performance boasts not only eye-catching numbers, but a wide range of options such as dynamic or comfortable driving, depending on the road conditions. Santa Fe also automatically recognizes the core driving tendencies of different family members, offering optimal driving modes for each driver.

Drive Mode

Simply turn knob to select the mode that suits you best: COMFORT for everyday driving, ECO for optimal fuel efficiency, SPORT for quicker acceleration, or SMART which automatically adjusts gear shift intervals based on recent driving patterns.

New Body Platform

A new, next-generation platform has been applied to the Santa Fe, maximizing vehicle stability and creating more cargo space and legroom in the second and third rows. The new platform also brings with it significant improvements in collision safety, thanks to the increased usage of Advanced High-Strength Steel and hot stamping.

2nd Row Leg Room (7seats)	3rd Row Leg Room	Cargo Capacity (7seats, 3rd row folded)
1035mm	746mm	782ℓ

Perfectly aligned hybrid technology.

Hybrid

SUVs require SUV-specific hybrid systems. That's why Santa Fe uses an exclusive hybrid system, applying parts that deliver increased power to provide optimal driving and braking performance, as well as high fuel efficiency. A reallocated battery space also creates more room in the second row and cargo area.

Hybrid

In order to achieve optimal hybrid performance on an SUV, an exclusive TMED (Transmission Mounted Electric Device) type was applied to the Santa Fe. This enhances the PE parts' capacity, improving the output power and performance of the electric motor. The system also efficiently controls the vehicle by selecting EV mode or turning on/off the engine/motor accordingly, to enhance fuel economy.

1.6T GDi Gasoline Engine

180	Maximum Power ps/5,500 rpm
